Hash Check: 24cc071b348277e96e32348c90122656

Last Update: 2026-04-24

Verify

Processor: 1 GHz, 2-core minimum

RAM: Enough for patching

Disk space: At least 64 GB

CCleaner is a system optimization tool that removes junk files, fixes registry issues, and manages startup items. Cleans cache, temp files, browser history, restore points, duplicates, and more. It includes essential tools like a registry cleaner, an uninstaller, and a space eraser for privacy. Ideal for users aiming to boost system performance by cleaning up unnecessary files and fixing issues. Had a past malware incident, but current versions are considered secure if kept updated.
