- **Processor:** high **single-core** performance needed
- **RAM:** minimum **16 GB** for stable gameplay
- **Storage:** extra room for **future DLCs** and patches
- **Graphics:** DLSS 3 / FSR 3 **frame generation** compatible chip

Sam Bridges embarks on an inspiring mission of human connection beyond the UCA alongside a diverse cast of returning and new companions. Traverse rugged landscapes beset by otherworldly enemies, dynamic environmental hazards, and a haunting existential question about the cost of connection. Kojima Productions delivers a visually stunning narrative engineered to maximize hardware capabilities with seamless transitions and photo-realistic character modeling. The journey expands

across completely fresh global territories, offering vastly upgraded traversal mechanics and deep strategic combat options.
