- CPU: AVX2 instruction set required
- RAM: 16 GB or higher for smooth 1440p
- Storage: 100 GB free space
- Graphics: 12 GB VRAM minimum required

Sam Bridges embarks on an inspiring mission of human connection beyond the UCA alongside a diverse cast of returning and new companions. Traverse rugged landscapes beset by otherworldly enemies, dynamic environmental hazards, and a haunting existential question about the cost of connection. Kojima Productions delivers a visually stunning narrative engineered to maximize hardware capabilities with seamless transitions and photo-realistic character modeling. The journey expands

across completely fresh global territories, offering vastly upgraded traversal mechanics and deep strategic combat options.
