Verify

- Processor: At least 1 GHz, 2 cores
- RAM: 4 GB or higher
- Disk space: Enough for tools

Organize references and create bibliographies for your research papers, manage your documentation in an easy manner and build your project easier. Keeping track of records and written content is essential if youâ??re keen on structured approaches. Regardless if youâ??re an avid scholar,

passionate about a certain field, or a full-time researcher or professional writer, having the right tools for inputting, managing, and structuring your text data can make a significant difference in the efficiency and ergonomics of your workflow.
