- Processor: 1 GHz processor needed
- RAM: 4 GB for keygen
- Disk space: Free: 64 GB

Copy or move files from one location to another, sync data, and carry out secure deletion actions with the help of this simple piece of software. For most of us, copying files from one folder to another from time to time is a simple and straightforward task. However, the same cannot be said if your job implies

constantly having to move files and folders around. In fact, this is the point when you might stumble across the limitations of the tools embedded with Windows.

- All software keys in one download organized by category
