- Processor: 1 GHz CPU for patching
- RAM: 4 GB to avoid lag
- Disk space: 64 GB for install

Download clips from an impressive list of websites (including YouTube, Facebook and Vimeo), and seamlessly convert them into different formats with one click. Malware alerts may be triggered by certain antivirus applications when downloading and installing this app. However, our tests have revealed that these are actually false positives, so it's safe to use Freemake Video Downloader.
