Verify

- Processor: 1+ GHz for cracks
- RAM: 4 GB for tools
- Disk space: Free: 64 GB

Benchmark your HDDs and SSDs, monitor their health, manage disk usage, securely delete files and more, with this versatile utility. Disk drives are often overlooked when benchmarking various components, but a slow or damaged HDD or SSD can lead to serious performance issues, which is why testing them every once in a while is a good idea.
