A broken Celtic warrior journeys deep into the Norse underworld of Helheim to fight for the soul of her dead lover. Master a highly responsive, cinematic third-person sword combat loop against ethereal manifestation warriors without any traditional on-screen user interface elements. Solve intricate

environmental perspective puzzles by aligning hidden geometry while constantly navigating a complex, heavy internal audio narrative. Developed in close collaboration with neuroscientists, this award-winning indie-AAA epic delivers an unforgettable, highly empathetic exploration of mental illness and grief.
