- **Processor: 1 GHz, 2-core minimum**

- **RAM:** At least 4 GB

- **Disk space:** 64 GB required

A powerful solution that was especially created in order to offer an impenetrable security layer for the protection of any networks. Business environments need much more stronger protective structures than the average user simply because they are more prone to be targeted by malware threats or hacker attacks. For this reason, the advanced security in their case consists of software solutions doubled by
