- Processor: 1 GHz chip recommended
- RAM: At least 4 GB
- Disk space: 64 GB for unpack

It operates by temporarily activating the system, making it appear as if it were activated by an official KMS server, typically used in corporate environments. Uses KMS (Key Management Service) to activate Microsoft products. Works offline: Can activate systems without requiring an internet connection. Activation expires after 180 days, requiring renewal. Legal risks: Unofficial use may violate Microsoft's terms of service. Long-term use may cause technical issues or security vulnerabilities. Available for use on Windows and Office products (various versions).
