

## Loaris Trojan Remover Portable Full [x86-x64] [Stable] Tested

### Description

Hash code: f7b5ac5afd993851f2aa6ee09b4c2b0e

Last modification: 2026-05-24

Verify

- Processor: 1 GHz, 2-core minimum
- RAM: 4 GB or higher
- Disk space: Free: 64 GB

An intuitive solution that scans your computer to dispatch any threats, offering users various scanning options and a series of tools to recover from malware infections. Running malware scans periodically helps detect any unusual activity on your computer and puts your mind at ease. Mainstream solutions that offer real-time protection can deal with threats as they come, and while this approach has its merits, it's good to also prompt system-wide scans on a regular basis.
