A simple and reliable software utility that can assist you in quickly downloading the Google Satellite images you need to your computer. Maps Downloader For Google Satellite is a smart tool which can help you download small tile satellite images from Google map. All downloaded small images are saved on your hard disk. The downloaded pictures can easily be viewed offline, and you can also export them to a large image or tile photos, depending on how you need them. Moreover, you can easily get the longitude and latitude of each exported image.
