Microsoft Office is a versatile suite for work, education, and innovation.

Microsoft Office continues to be one of the most preferred and dependable office suites in the world, equipped with all the necessary resources for smooth handling of documents, spreadsheets, presentations, and additional tasks. Perfect for professional projects and everyday errands while

youâ??re at home, school, or your place of work.

What software is included in Microsoft Office?

Skype for Business

Skype for Business is a corporate platform for communication and online collaboration, that merges instant messaging with voice and video calls, conference options, and file sharing within a single secure solution. Created as a business-ready version of Skype, with additional features, this platform was designed to support companies with tools for internal and external communication in accordance with organizational standards for security, management, and integration with other IT systems.

Microsoft Teams

Microsoft Teams is a flexible, multifunctional platform for communication, collaboration, and video calls, built as a solution that fits teams of any size. She is now a fundamental component of the Microsoft 365 ecosystem connecting chats, calls, meetings, file sharing, and integrations seamlessly in a unified workspace. Teams seeks to provide a comprehensive digital center for users, where you can interact, plan tasks, hold meetings, and edit documents collaborativelyâ??all inside the app.

- Keygen supporting serial generation for professional editions
- License file creator with pre-activated templates
