Microsoft OneNote

Microsoft OneNote is a digital note management app built for quick and convenient collection, storage, and organization of ideas, notes, and thoughts. It balances the flexibility of a standard notebook with the functionalities of advanced software: you can add text, images, audio, links, and tables here. OneNote is great for personal notes, educational activities, professional tasks, and teamwork. Thanks to the integration with Microsoft 365 cloud, all records automatically sync across devices, offering access to data at any place and time, whether through a computer, tablet, or smartphone.

Microsoft Word

An advanced text editing tool for drafting, modifying, and styling documents. Provides a broad toolkit for working with textual formatting, styles, images, tables, and footnotes. Allows for real-time teamwork and offers ready templates for rapid onboarding. Word provides an easy way to generate documents either from scratch or by choosing from a variety of templates, covering everything from CVs and letters to reports and invites. Configuring fonts, paragraphs, indentations, line spacing, lists, headings, and formatting styles, facilitates the transformation of documents into clear and professional materials.

Microsoft PowerPoint

Microsoft PowerPoint is an essential tool for creating professional visual presentations, balancing simplicity with advanced professional features for information design. PowerPoint is designed for both beginners and advanced users, working in the industries of business, education, marketing, or creative fields. This application includes a wide range of tools for inserting and editing content. text elements, images, tables, graphs, icons, and videos, for the purpose of transitions and animations.
