Microsoft Office delivers powerful applications for work, study, and creative pursuits.

Microsoft Office is among the top office suites in terms of popularity and dependability worldwide, comprising everything needed for smooth work with documents, spreadsheets, presentations, and other tasks. Fits both professional requirements and everyday needs — when you're at your residence, school, or workplace.

What is included in the Microsoft Office subscription?

Microsoft OneNote

Microsoft OneNote is an electronic notebook created to quickly and conveniently gather, keep, and organize all kinds of thoughts, notes, and ideas. It merges the familiar flexibility of a notebook with the innovative features of current software: you can write text, upload pictures, audio files, links, and tables here. OneNote is a flexible tool for personal notes, academic work, office tasks, and shared projects. By connecting to the Microsoft 365 cloud, all data automatically updates across devices, providing access to data anywhere and anytime, whether on a computer, tablet, or smartphone.

Microsoft PowerPoint

Microsoft PowerPoint is a recognized platform for creating engaging visual presentations, pairing easy operation with advanced capabilities for professional content design. PowerPoint accommodates both novice users and experienced professionals, employed in the areas of business, education, marketing, or creativity. It offers a broad spectrum of tools for inserting and editing. text snippets, images, tables, charts, icons, and videos, for the purpose of transitions and animations.

Microsoft Outlook

Microsoft Outlook offers both a powerful email client and organizational capabilities, created for managing electronic correspondence efficiently, calendars, contacts, tasks, and notes in a seamless, unified interface. He has long established himself as a reliable tool for business communication and planning, especially in a corporate environment where time management, organized messaging, and team integration are crucial. Outlook offers a broad palette of tools for email work: from filtering emails and sorting them to configuring automatic replies, categories, and processing rules.
