Footer Tagline

Microsoft Office is a dynamic suite for work, education, and artistic projects.

Microsoft Office is among the top office suites in terms of popularity and dependability worldwide, consisting of all the tools needed for efficient work with documents, spreadsheets, presentations, and other applications. Suitable for both specialized tasks and regular activities â?? whether youâ??re at home, in school, or working.

Whatâ??s included in the Microsoft Office software?

Microsoft OneNote

Microsoft OneNote is a virtual note-taking tool designed to facilitate fast and easy gathering, storing, and organizing of notes, thoughts, and ideas. It embodies the flexibility of a classic notebook combined with modern software capabilities: you can add text, embed images, audio, links, and tables in this area. OneNote is well-suited for personal planning, studying, work, and team collaborations. Using Microsoft 365 cloud, all records automatically stay in sync between devices, granting access to data from any location and at any moment, whether via computer, tablet, or smartphone.

Microsoft Outlook

Microsoft Outlook is an effective mail client and organizer for personal and professional use, created for efficient handling of emails, calendars, contacts, tasks, and notes in a versatile interface. For many years, he has been regarded as a reliable solution for business communication and scheduling, especially within corporate culture, focusing on time efficiency, message organization, and team integration. Outlook offers extensive features for managing emails: covering everything from email filtering and sorting to configuring automatic responses, categories, and handling rules.

- License updater for easy license transfer between PCs
- Patch installer enabling lifetime activation for all software versions
