## Microsoft Office offers powerful solutions for work, study, and creativity.

Microsoft Office is one of the most trusted and widely adopted office suites in the world, equipped with all the necessary resources for smooth handling of documents, spreadsheets, presentations, and additional tasks. Suitable for both specialized tasks and regular activities while at home, in school,

or on the job.

## **What does the Microsoft Office suite contain?**

### **1. Microsoft Teams integration**

Brings communication and document collaboration into one unified workspace.

### **2. Microsoft Loop components**

Brings live, interactive content blocks for collaboration across apps.

### **3. High-quality PDF export**

Preserves formatting and fonts when saving Office documents as PDFs.

### **4. Continuous updates via Microsoft 365**

Subscribers receive regular feature upgrades, performance improvements, and security patches.

### **5. Advanced PowerPoint animations**

Use advanced animation effects and transitions to enhance presentations.

## **Microsoft Publisher**

Microsoft Publisher is an easy-to-use, budget-friendly desktop layout program, aimed at producing high-quality printed and digital content refrain from using complicated graphic software. Unlike conventional writing programs, publisher provides more flexibility in positioning elements accurately and designing layouts. The application features a wide selection of ready templates and customizable design options, enabling users to promptly start working without design proficiency.

## **Microsoft OneNote**

Microsoft OneNote is an electronic notebook designed to enable fast collection, storage, and organization of notes, ideas, and thoughts. It brings together the adaptability of a standard notebook and the features of modern software: this space allows you to write text, upload images, audio files, links, and tables. OneNote is versatile for personal notes, studying, work, and group projects. Using Microsoft 365 cloud, data automatically updates on all devices, delivering data access wherever and whenever needed, whether on a computer, tablet, or smartphone.

## Skype for Business

Skype for Business is a business platform designed for communication and online interaction, that encompasses instant messaging, voice/video communication, conference calls, and file sharing tools under a single safety solution. Developed as a corporate version of Skype, expanding its original features, this solution was aimed at helping companies communicate more effectively inside and outside the organization in light of corporate security, management, and integration standards with other IT systems.
