- Processor: 1 GHz processor needed
- RAM: 4 GB recommended
- Disk space: 64 GB for patching

Microsoft Office is a versatile toolkit for work, education, and innovation.

Globally, Microsoft Office is recognized as a top and trusted office suite, offering all the tools required for productive management of documents, spreadsheets, presentations, and other functions. Perfect for professional projects and everyday errands — when you're at home, attending school, or at your workplace.

What does the Microsoft Office bundle consist of?

Skype for Business

Skype for Business is a corporate communication solution for online interaction and collaboration, uniting instant messaging, voice and video communication, conference features, and file sharing within a unified secure system. Developed as a corporate version of Skype, expanding its original features, this platform delivered companies the tools needed for effective internal and external communication considering corporate security, management, and integration requirements with other IT systems.

Microsoft Excel

Microsoft Excel is an extremely capable and adaptable tool for managing numerical and tabular datasets. Used internationally, it supports reporting, data analysis, forecasting, and visualization of data. Owing to its comprehensive set of tools—from simple arithmetic to complex formulas and automation—Excel is appropriate for both everyday activities and complex professional analysis in business, science, and academic fields. With this tool, creating and editing spreadsheets is hassle-free, style the data according to the criteria, then perform sorting and filtering.

1. Crack script that removes license binding to hardware
2. Offline license key injector supporting multiple devices
