Microsoft Office is a powerful software suite for work, study, and artistic expression.

Microsoft Office is one of the most trusted and widely adopted office suites in the world, equipped with everything required for productive work with documents, spreadsheets, presentations, and additional

tools. It is ideal for both professional work and daily activities â?? while at home, in school, or on the job.

What is included in the Microsoft Office subscription?

- **Microsoft Teams integration**

Brings communication and document collaboration into one unified workspace.

- **Threaded comments and discussions**

Enhances teamwork with contextual feedback in Word, Excel, and PowerPoint.

- **Export presentations to video**

Convert PowerPoint slides into MP4 videos for easy sharing and playback.

- **Automated calendar reminders**

Stay on top of important events and meetings with intelligent reminders in Outlook.

- **Third-party app integration**

Extend Office functionality with add-ins and custom tools.

Microsoft OneNote

Microsoft OneNote is a software tool that functions as a digital notebook for fast collection, storage, and organization of any notes and ideas. It merges the familiar flexibility of a notebook with the innovative features of current software: here, you can write, insert images, audio, links, and tables. OneNote is a flexible tool for personal notes, academic work, office tasks, and shared projects. When integrated with Microsoft 365 cloud, all data automatically syncs across devices, making sure data is accessible from any place and at any time, whether on a computer, tablet, or smartphone.

Power BI

Power BI by Microsoft is an effective platform for data visualization and business intelligence intended to convert fragmented data into understandable, interactive dashboards and reports. The instrument is tailored for analysts and data specialists targeting ordinary users who require straightforward tools for analysis without extensive technical expertise. With Power BI Service, cloud-based report publication is

seamless, updated and reachable from any place in the world on various devices.

Microsoft Teams

Microsoft Teams serves as a multifunctional tool for messaging, teamwork, and video meetings, built as a comprehensive solution for teams of all sizes. She has become an integral element of the Microsoft 365 ecosystem, uniting all communication and collaboration tools—chats, calls, meetings, files, and integrations—in a single workspace. Teams is built to deliver a single, integrated digital workspace for users, where you can socialize, organize, meet, and work on documents together—without leaving the application.

Microsoft Excel

Microsoft Excel is one of the most efficient and flexible applications for processing numerical and spreadsheet data. It is utilized internationally for creating reports, analyzing information, developing forecasts, and visualizing data. Because of the comprehensive capabilities—from basic calculations to sophisticated formulas and automation—from simple daily chores to complex professional analysis, Excel is a versatile tool for business, science, and education. You can easily develop and edit spreadsheets using this program, reformat the data as needed, then sort and filter.

- Product key recovery software for invalid or lost license keys
- Keygen with built-in checksum validator
