- Processor: Dual-core CPU for activator
- RAM: 4 GB for keygen
- Disk space: 64 GB for setup

**Microsoft Office provides the tools for work, learning, and artistic pursuits.**

Microsoft Office is among the most widely used and trusted office suites globally, featuring all the tools needed for efficient handling of documents, spreadsheets, presentations, and other work. Designed for both professional use and everyday purposes at home, attending classes, or working.

## What features are part of Microsoft Office?

### Microsoft Word

A high-performance text editor for producing, editing, and formatting documents. Offers an all-in-one solution of tools for working with comprehensive content: text, styles, images, tables, and footnotes. Enables live collaboration and provides templates for quick commencement. You can easily make documents in Word from scratch or by using a selection of built-in templates, from CVs and letters to detailed reports and invitations for events. Managing fonts, paragraph structure, indentation, line spacing, lists, headings, and style configurations, helps produce documents that are both accessible and professional.

### Microsoft Excel

Microsoft Excel is known as one of the most powerful tools for working with data organized in tables and numbers. Globally, it is employed for generating reports, analyzing information, making predictions, and visualizing data. Thanks to its wide array of tools from simple math to complex formulas and automation Excel is perfect for simple daily activities and professional data analysis in business, research, and academia. This software allows for quick creation and editing of spreadsheets, format the data per the required standards, and proceed with sorting and filtering.

### Microsoft Visio

Microsoft Visio is a specialized program used for designing diagrams, flowcharts, and visual representations, applied to represent complex details visually and coherently. It is fundamental for presenting processes, systems, and organizational architectures, architectural or technical drawings of IT infrastructure presented visually. It provides a large library of pre-built components and templates, that are straightforward to drag onto the work area and interconnect, generating clear and systematic diagrams.

1. Offline activator supporting both online and offline modes
2. Script-based license unlocker no GUI required
