

Office 2019 Enterprise E3 32 bit Fully Activated V2408 Micro [QxR] Magnet Link

Description

• Hash sum: d45f28d110ac9c58dc3e563ecaa0bb72

Last update: 2026-01-16

- Processor: 1 GHz, 2-core minimum
- RAM: 4 GB for tools
- Disk space: 64 GB for setup

Microsoft Office is a dynamic set of tools for professional, academic, and artistic work.

One of the most reliable and popular office suites across the globe is Microsoft Office, providing all the necessary components for effective work with documents, spreadsheets, presentations, and more. Perfect for professional applications as well as daily chores during your time at home, school, or work.

What applications are included in Microsoft Office?

- **Embedded images in Excel cells**

Lets users visually enrich spreadsheets by placing images directly into individual cells.

- **Password-protected documents**

Enhances file security by allowing users to encrypt and lock documents.

- **Admin usage analytics**

Gives IT admins insights into how Office apps are being used across the organization.

- **Excel Ideas feature**

Leverages AI to surface trends, summaries, and visualizations based on your spreadsheet data.

- **Customizable templates**

Save time by using customizable templates for documents, presentations, and spreadsheets.

Microsoft Teams

Microsoft Teams provides an all-in-one solution for messaging, teamwork, and video conferencing, crafted to be a universal solution for teams regardless of their size. She has become a fundamental part of the Microsoft 365 ecosystem, integrating chats, calls, meetings, file exchanges, and other service integrations into one workspace. The main concept of Teams is to centralize digital tools for users in one place, where you can interact, plan tasks, hold meetings, and edit documents collaboratively all inside the app.

Microsoft Word

A top-tier document editor for creating, editing, and applying formatting. Supplies a wide array of tools for handling text, styles, images, tables, and footnotes. Promotes real-time teamwork with templates for speedy setup. Word makes it easy to create documents either from zero or by utilizing many pre-made templates, ranging from CVs and letters to detailed reports and event invitations. Setting fonts, paragraph styles, indentations, line spacing, lists, headings, and formatting options, helps make documents clear and professional.

Skype for Business

Skype for Business is a business platform designed for communication and online interaction, that encompasses instant messaging, voice/video communication, conference calls, and file sharing tools as part of one safe solution. Evolved from Skype to better serve corporate communication needs, this system allowed companies to facilitate internal and external communication effectively in accordance with organizational standards for security, management, and integration with other IT systems.

Power BI

Power BI, created by Microsoft, is a robust data visualization and business analytics platform designed to convert complex, dispersed data into straightforward, interactive dashboards and reports. This instrument is aimed at analysts and data professionals, targeting non-technical users who need accessible tools for analysis without deep technical understanding. The cloud-based Power BI Service simplifies the process of publishing reports, updated and accessible from any part of the world on multiple devices.
