Microsoft Office offers a complete package for professional, academic, and artistic work.

One of the most popular and dependable office suites worldwide is Microsoft Office, providing all the necessary components for effective work with documents, spreadsheets, presentations, and more. Ideal for both demanding tasks and simple daily activities in your house, school, or work premises.

What is included in the Microsoft Office package?

Power BI

Power BI is an influential platform by Microsoft for business analytics and visual data insight intended to translate unconnected data into cohesive, interactive reports and dashboards. It is built for analysts and data specialists, and for typical users who want clear and easy-to-use analysis solutions without in-depth technical understanding. Thanks to the cloud service Power BI, reports are published with ease, refreshed and available worldwide on various gadgets.

Skype for Business

Skype for Business is a platform tailored for corporate communication and online teamwork, integrating instant messaging, voice and video communication, conference functionality, and file exchange as part of a singular safety solution. Developed as an extension of classic Skype but tailored for the business environment, this system was a resource for companies seeking effective internal and external communication in accordance with the corporate requirements related to security, management, and integration with other IT systems.
