Microsoft Office is a powerful, versatile suite for work, learning, and artistic projects.

Microsoft Office is a highly popular and trusted suite of office tools around the world, equipped with everything required for productive work with documents, spreadsheets, presentations, and additional tools. Versatile for both professional settings and daily tasks – whether you’re relaxing at home, studying at school, or working at your job.

What does the Microsoft Office bundle consist of?

Microsoft Visio

Microsoft Visio is a software solution for creating detailed diagrams, charts, and visual schemes, used for illustrating complex data in a transparent and well-structured format. It is indispensable where processes, systems, and organizational structures need to be represented, visual plans of IT infrastructure architecture or technical drawings. The program supplies a diverse collection of pre-made elements and templates, quick to move onto the workspace and link up with each other, generating clear and systematic diagrams.

Microsoft Teams

Microsoft Teams is a comprehensive platform for chatting, working together, and holding video conferences, made as a universal platform for teams of any size. It has become a significant element within the Microsoft 365 ecosystem, providing a workspace that includes chats, calls, meetings, file exchanges, and integrations with external services. Teams’s main purpose is to provide users with a consolidated digital hub, the platform for chatting, task coordination, meetings, and document editing, all within the application.
