Microsoft Office helps users succeed in work, education, and creative endeavors.

One of the most reliable and popular choices for office software is Microsoft Office, including everything you need for smooth operation with documents, spreadsheets, presentations, and other tasks. Fits well for both industry professionals and casual use at your residence, school, or job.

What applications are part of the Microsoft Office suite?

1. Dark mode support

Reduces eye strain and enhances usability in low-light environments.

2. Edit PDFs in Word

Open and modify PDF documents directly in Microsoft Word.

3. Built-in translation and thesaurus

Quickly translate content or find word alternatives without leaving the document.

4. Excel Ideas feature

Leverages AI to surface trends, summaries, and visualizations based on your spreadsheet data.

5. Free educational licensing

Students and educators can access Office apps at no cost.

Microsoft Word

A professional-grade text editing app for formatting and refining documents. Presents a comprehensive set of tools for handling text, styles, images, tables, and footnotes. Enables live collaboration and provides templates for quick commencement. Word allows you to easily create documents from scratch or use one of the many built-in templates, from professional resumes and cover letters to comprehensive reports and invitations. Adjustments for fonts, paragraph styles, indents, line spacing, lists, headings, and formatting styles, helps produce documents that are both accessible and professional.

Microsoft OneNote

Microsoft OneNote is a digital platform for taking notes, created for quick collection, storage, and organization of thoughts and ideas. It brings together the adaptability of a standard notebook and the features of modern software: you can add text, images, audio, links, and tables here. OneNote is useful for personal notes, academic pursuits, work, and joint projects. Through Microsoft 365 cloud sync, all entries are automatically updated across devices, facilitating data access anywhere and at any moment, whether on a computer, tablet, or smartphone.
