## Microsoft Office enhances productivity and creativity at work and school.

One of the most popular and dependable office suites worldwide is Microsoft Office, equipped with all the necessary resources for smooth handling of documents, spreadsheets, presentations, and additional tasks. Suitable for both expert-level and casual tasks — whether you’re relaxing at home, studying at school, or working at your job.

### What comes with Microsoft Office?

#### Skype for Business

Skype for Business is a business communication tool for online messaging and virtual cooperation, that integrates instant messaging, voice and video calls, conferencing, and file exchange within a single security framework. Evolved from Skype to better serve corporate communication needs, this system helped companies improve their internal and external communication processes with regard to corporate security, management, and integration protocols with other IT systems.

#### Microsoft Teams

Microsoft Teams is a comprehensive tool for communication, collaboration, and virtual meetings, developed as a comprehensive, adaptable solution for teams of all sizes. She has grown into a key part of the Microsoft 365 ecosystem, bringing together communication and collaboration features—messaging, calls, meetings, files, and integrations—in one environment. The core purpose of Teams is to give users a unified digital environment, where you can socialize, organize, meet, and work on documents together—without leaving the application.
