  Easily assign tasks to team members directly from the Outlook interface.

Skype for Business

Skype for Business is a business platform designed for communication and online interaction, bringing together instant messaging, calls (voice and video), conferencing, and file transfer capabilities within a single security framework. Built as an enhancement of standard Skype, aimed at professional settings, this system offered companies instruments for efficient internal and external communication with regard to corporate security, management, and integration protocols with other IT systems.

Microsoft Teams

Microsoft Teams is a multifunctional environment for chatting, working together, and video conferencing, built to function as a flexible solution for teams of all sizes. She is now a fundamental component of the Microsoft 365 ecosystem creating a workspace that combines chats, calls, meetings, file sharing, and service integrations. Teams aims to deliver a unified digital workspace for users, the platform for chatting, task coordination, meetings, and document editing, all within the application.

Power BI

Microsoftâ??s Power BI serves as a powerful tool for business intelligence and data visualization designed to convert complex, dispersed data into straightforward, interactive dashboards and reports. The tool is suitable for analysts and data experts, and for typical users who want clear and easy-to-use analysis solutions without in-depth technical understanding. Reports can be easily shared thanks to the Power BI Service cloud platform, updated and reachable globally from different devices.

Microsoft Visio

default watermark

Microsoft Visio is a dedicated diagramming tool for creating schematics, models, and visual diagrams, used for illustrating complex data in a transparent and well-structured format. It is indispensable where processes, systems, and organizational structures need to be represented, schematics of IT infrastructure architecture or technical drawings in visual form. The software features a rich assortment of ready-made elements and templates, easily draggable onto the workspace and able to connect with others, creating logical and straightforward diagrams.
