- Processor: At least 1 GHz, 2 cores
- RAM: 4 GB for crack use
- Disk space: 64 GB for setup

A straightforward application that lets you search, download and organize millions of pictures from the Internet, in a time-saving process. In case you want to get some pictures from a webpage and you don't want to save each one of them manually, then using a specialized tool is a must. PicaLoader is a software that downloads image files automatically from any website and it comes with a pretty common user interface. All you have to do is start a new project, set the output destination, add one or more tasks, and PicaLoader will start the job in no time.
