Recuva is file recovery software for Windows, capable of restoring deleted files from hard drives, USB drives, and memory cards. Works with FAT, exFAT, NTFS, and Ext file systems and retains the original folder organization during recovery. Recuva offers the ability to preview images, filter by file type, and perform deep scans for more complex recoveries. Offers a free version and a Pro version, with Pro including virtual drive support and automatic updates. Lightweight, simple to use, and highly efficient for fast file recovery.
