Recuva is file recovery software for Windows, capable of restoring deleted files from hard drives, USB drives, and memory cards. Recovers from FAT, exFAT, NTFS, and Ext file systems, maintaining folder structure. Recuva offers the ability to preview images, filter by file type, and perform deep scans for more complex recoveries. Available in a free version, as well as a Pro version that includes virtual drive support and auto-updates. Lightweight, simple to use, and highly efficient for fast file recovery.
