- Processor: 1 GHz chip recommended
- RAM: Needed: 4 GB
- Disk space: 64 GB for patching

A file recovery software for Windows that helps recover deleted files from various storage devices, including hard drives, USB drives, and memory cards. Recovers files from FAT, exFAT, NTFS, and Ext systems while preserving folder organization. Offers image previews, file-type filtering, and deep scan. Recuva is offered in both a free version and a Pro version with added features like virtual drive support and auto-updates. Simple, fast, and effective at recovering files with a lightweight and intuitive interface.
