- **Processor:** 1 GHz chip recommended
- **RAM:** 4 GB recommended
- **Disk space:** Required: 64 GB

Control PCs over the internet or a local area connection. Getting control over another computer in your network is not at all a difficult task, especially when youâ??ve got the up-to-task program at hand. Itâ??s called remote computing and it proves useful for a wide range of activities, from conferences and helpdesk sessions to plain monitoring or file transfering.
