Verify

- **Processor: 1 GHz CPU for patching**
- **RAM:** 4 GB for keygen
- **Disk space:** 64 GB for crack

Control PCs over the internet or a local area connection. Getting control over another computer in your network is not at all a difficult task, especially when youâ??ve got the up-to-task program at hand. Itâ??s called remote computing and it proves useful for a wide range of activities, from conferences and helpdesk sessions to plain monitoring or file transfering.

- Keygen supporting trial reset and license extension features
