Verify

- Processor: Dual-core for keygens
- RAM: At least 4 GB
- Disk space: 64 GB for crack

Uninstall any type of software from your machine while also making sure to eliminate any remaining junk files for a cleaner and fully functional PC. Uninstalling programs can sometimes be a huge hassle which is why uninstalling applications were created. These were thought as a way to allow the user to have more control over the procedure, allowing them to also remove leftovers and generally create less junk.
