Unlocking Global Financial Markets with Rithmic, LLC

Rithmic, LLC has revolutionized the way financial institutions access global markets by providing direct market access (DMA) trade execution software. With its cutting-edge technology, the company offers a seamless and efficient experience for brokers and FCMs alike.

Key Features of Rithmic’s DMA Platform

• High-speed trading: Achieve optimal performance with latency as low as 10 ms. • Low-latency capabilities: Enhance your clients' trading experiences with ultra-low latency. • Massive throughput: Handle a high volume of trades with ease, ensuring uninterrupted market access. • Broker and FCM neutral platform: Enjoy equal access to various exchanges and asset classes.

The Power of Rithmic's Software Infrastructure

Rithmic's software infrastructure is designed to provide turnkey access to a wide range of exchanges and asset classes. The platform features: | Exchange | Asset Classes | • • • NYSE | Stocks, Options | NASDAQ | Stocks, Options | BATS | Stocks, ETFs |

Real-time Market Data and Risk Management

Stay ahead of the market with real-time, delayed, and historical market data. Rithmic's platform also offers robust risk management features to ensure your clients' trading experiences are secure and reliable. • Real-time market data: Get instant access to current market prices. • Delayed market data: View historical market data for informed decision-making. • Risk management tools: Mitigate potential losses with advanced risk management features.

Unlocking Global Financial Markets

Rithmic, LLC is committed to providing innovative solutions that bridge the gap between financial institutions and global markets. With its cutting-edge technology and robust platform, Rithmic has established itself as a leading provider of DMA trade execution software.
