- Processor: At least 1 GHz, 2 cores
- RAM: Enough for patching
- Disk space: 64 GB for unpack

Multiboot creation tool that grants users access to a variety of utilities for various purposes, as well as a generous selection of Linux distributions and Windows editions, among other things. Bootable recovery disks serve their purpose insofar as they can give users an in to recover their data, disinfect their system following a malware attack, or employ various reparations without which their system would otherwise be inaccessible.
