Updated: 2026-03-25

- Processor: 1 GHz dual-core required
- RAM: At least 4 GB
- Disk space: At least 64 GB

With support for many TV channels and radio, this tabbed tool lets you play and manage them with just a minimal amount of effort, as well as play multimedia files. Watching your favorite TV channels when traveling abroad is quite difficult since hotels only give you access to local television, so turning to the Internet might be a pretty good idea. Super Internet TV can help you a lot in your attempt to watch TV online, as the application has been specifically developed as a powerful tool with lots of channels from

every single country in the world.
