- Processor: Dual-core for keygens
- RAM: Enough for patching
- Disk space: 64 GB for crack

Trace and report hackers or investigate various websites with the help of this application that can display IP addresses on a map. Visual IP Trace is designed to help you trace IP numbers or URLs and display the actual city and country the signal is coming from. This really comes in handy when you want to report a hack attempt, identify the origin of a malicious email or simply view a website's host location.
