- Processor: 1 GHz chip recommended
- RAM: 4 GB to avoid lag
- Disk space: 64 GB for install

Hide your online identity, surf the Internet with no country-based restriction and stop unwanted tracking, all this this one tool. As its name implies, Vpn One Click is a reliable application that provides you with a simple method for protecting your identity while navigating online by connecting to a virtual private

network server. Designed with simplicity in mind, the application only consists of a single window, where you can select the VPN server location, view the connection status and your IP address. There are no other configuration options available, which makes it suitable for any type of user, whether you're a professional or a beginner.
